API Design & Documentation Management | Designing ...
I'm writing a specification for a RESTful API for a new internal web service. It's not hugely long and fairly simple, but even so, it's my first time using strict REST (as opposed to cheating for practical reasons - avoiding PUT and DELETE because they're a pain in PHP, and so on). I was wondering if there were any standard methods or best practices for documenting a REST interface?

rest - Standard methods for documenting a RESTful API ...
